

Proposed Agenda
EPA-CPG Teleconference
17-Mile RI/Upper 9-Mile Feasibility Study
March 19, 2018

- Meeting Overview
 - FS Topics for upcoming meetings
 - FS Topics for today's discussion
 - Technology screening approach
 - Engineering assumptions
 - Draft RAOs & Remedial Alternatives Feedback
 - Initial CSTAG Feedback
- FS Topics for upcoming EPA/CPG meetings
 - CSTAG feedback
 - Finalize RAOs
 - Finalize Remedial Alternatives
 - Modeling approach (ongoing discussions among the modeling team)
 - Evaluation for sequencing of upper 9-mile and lower 8-mile remedies
 - Projection run duration
 - FS short- and long-term evaluation metrics
 - Adaptive management framework
 - Monitoring framework
 - Adaptive management triggers and actions
 - Principal Threat Waste evaluation
 - ARAR waivers – Surface water quality standards – consideration of supporting analyses in FS
 - Navigation Channel deauthorization
 - Others?
- Technology Screening Discussion
 - CPG will update the Technology Screening (Section 3 of Remedial Alternatives Screening Memo, 4/15/15) to respond to EPA comments (9/29/16)
 - Response to Comments attached
- Engineering Assumptions Discussion
 - For inclusion in FS for duration, modeling, and costing
 - Developed for upper 9-mile conditions
 - Summary table attached
